

HOB International, Inc. receives ISO 14001 Certification  
Electronics Recycling and Asset Disposition Company, HOB International, Inc., has received ISO 140001 certification at its processing center in Batavia, IL near Chicago.

Created by the International Organization for Standardization, ISO 14001 is an international quality standard recognized throughout the world. Earning ISO certification requires a company's systems and processes to adhere to very rigorous set of metrics. Specifically, ISO 14001, measures companies against environmental standards.

"We are extremely proud of this accomplishment," states company CEO and Batavia Operations Manager, Cathy Hill, "this emphasizes our commitment to the environment and to sound environmental solutions for our clients."  
HOB helps the Fortune 1000 and medium sized businesses retire IT assets such as personal computers, servers, networking equipment, telephones and cellular phone equipment in compliance with federal privacy regulations, environmental laws and internal corporate security policies.

HOB, founded in 1992, is an Illinois based firm with operations in Dallas, TX and Atlanta, GA. The company will continue to pursue additional certifications in Dallas, TX in 2007.

HOB has also pioneered processes for data destruction and is one of only seven vendors nationwide selected by the EPA to participate in the READ program for the disposal of electronics gear from federal offices.
